

STEAM WINTER CAMP

4th - 8th JANUARY 2021

Our 2021 WINTER camp will run from Monday to Friday from 9:30 - 15:30. Join us at Strothoff International school in January and learn how do some cool STEAM stuff!

Our STEAM camp teaches useful skills for future careers in science, technology, engineering, art and math in a fun and engaging club setting. The camp is a mixture of 3 different activities - Robotics, Coding & 3D Computer Game Design. Our program fosters valuable 21st century life skills like problem solving, creativity, collaboration and more.

Robotics & Coding workshops will introduce our participants into the interesting world of robotics and coding. The students will use Pro-bots and M-Boots to tune their coding skills and learn the basics of robotics, electronics and mechanics.

3D Computer Game Design workshops will teach our participants how to create, outline, and finally, program their own computer games. Beginning students will learn programming in Scratch.
